Conflict in our society is caused by people trying to force their values on-to others. It's okay to try to persuade people to change, but Libertarians oppose using force to achieve change.

People should feel free, safe and welcome in Texas regardless of race, religion, sexual orientation, or country of origin.

COVID-19: I support voluntary protective measures. Individuals have the right to choose their level of risk-taking; government should not force any business or organization to close.

Libertarians want to take over the government and leave you alone.

Enough is enough!
