Letter from the Libertarian Booster PAC President

Dear Friend of Liberty,

The Libertarian Booster PAC is pleased to present our ratings of the members of the 2018-2019 Virginia state legislature, the General Assembly, based on their votes on various bills.

With average ratings of 16% in the Senate and 18% in the House of Delegates, it's abundantly clear that the incumbents rarely vote to move public policy in a peaceful and productive direction and any differences between Democrats and Republicans are minor in the big picture. The Virginia legislature is almost equally divided between Republicans and Democrats, with no Libertarians serving.

Libertarians generally favor maximum freedom and a much smaller government, with lower taxes, less government spending, fewer regulations, and fewer restrictions on personal behavior and lifestyles.

People have a variety of preferences and priorities when it comes to religion, education, lifestyles, behavior, finances, and charity. Libertarians embrace diversity and think you should be able to do whatever you want as long as you aren't infringing on the rights of others.

Much of the conflict in our society is the result of one group of people forcing other groups to do things they don't want to do.

Libertarians acknowledge people will not always agree on what is best or appropriate. While Libertarians generally have a "live-and-let-live" attitude, that doesn't mean you have to sit down, be quiet, and accept other people's choices if you don't like what they're doing. But there's a right way and a wrong way to change people. Libertarians support using *persuasion* to influence other people's choices, rather than the *force* of government.

It's fine to encourage young adults not to smoke. It's wrong to pass laws prohibiting adults who are 18 to 20 years old from buying cigarettes. It's fine for customers to choose only barbers who are trained and certified for special techniques. It's wrong for the government to prohibit (with force) barbers who don't have that same certification from offering their services. It's up to customers to judge qualifications and to decide which service providers to trust, not the government. Unfortunately, the General Assembly made both of those wrong choices this year.

We were pleased to see the legislature vote for minor changes that reduce some construction license requirements, and allow casinos in Virginia under some circumstances. (We want to give credit in the rare cases where credit is due.)

Generally, the Virginia legislature performed very poorly from 2018 to 2019 by failing to restrict abusive asset forfeiture policies, by failing to expand school choice, by failing to allow guns in church, by failing to decriminalize marijuana, and by increasing the tobacco age from 18 to 21.

Instead of supporting free markets, the legislature subsidized both coal and renewable energy, and increased the licensing fees for businesses that sell alcohol.

Instead of providing across-the-board tax cuts for all businesses, the legislature singled out a few classes of businesses, plus the giant Amazon, and gave those privileged businesses tax incentives, including actual handouts.

The most glaring negative is the continued growth of the budget. Libertarians want lower government spending and lower taxes. We aren't just looking for efficiency and waste reduction. ***We want the government to do less.*** We want to eliminate programs that should be provided by the private sector, such as education, certifications, and charity. And we want to get rid of elements that should not exist at all, like the portion of police, courts, and jails used to enforce the war on drugs.

Lots of people, not just Libertarians, rightfully decry rising taxes and spending. So why do taxes and spending keep going up?

Taxes and spending keep going up because every Virginia Senator and Delegate but one voted for a bigger budget. That's why.

That's why we need different people in office.

Sure, Republicans often pay lip service to free markets and tax cuts, but when it actually matters, elected Republicans almost always vote for bigger budgets.

The budget is so important that we weighted it (2019 House Bill 1700) equal to all other bills combined when calculating our Overall Score for each legislator. The budget affects every Virginian significantly every day. The other bills are important, but their impact is narrower.

The Commonwealth of Virginia budget for spending was \$40 billion in 2012, \$50 billion in 2016, and \$62 billion in 2020. Libertarians reject the notion that budgets should always go up. The Libertarian Booster PAC supports cutting the Virginia budget instead.

It should be no surprise that the Libertarian Booster PAC wants to see Libertarian Party candidates elected to office to help implement our policies. We will continue working towards that end. We think the charts on the following pages show how reasonable our Libertarian positions are.

In the meantime, we also hope our Legislative Scorecard helps to educate Republican and Democratic voters about important issues, and we hope voters use our scorecard to pressure their representatives to vote the right way in the future.

Yours in liberty,

Wes Benedict
President
Libertarian Booster PAC

The Libertarian Booster PAC was founded in 2012 and is based in Austin, Texas. In 2013, the Libertarian Booster PAC was instrumental in recruiting Robert Sarvis to run for Governor of Virginia as the Libertarian candidate. Sarvis received 6.5% of the vote, which was the highest for a third party candidate in a southern state in 40 years. Wes Benedict served as Executive Director of the Libertarian National Committee during most of the period from 2009 through 2018.

Methodology and Results

Members of the Virginia Assembly submitted over two thousand bills from 2018 to 2019. Hundreds passed and were enacted, while the others failed or were put off for future consideration.

Libertarian Booster PAC selected fifteen of those bills that covered a variety of issues we thought were important to Libertarians and the general public, and that Libertarians could clearly support or oppose.

In most cases, the entire General Assembly (House and Senate) voted on the bills we selected. However, in a few cases, only committees of the two houses voted. We included those committee votes because we thought the issues were particularly important. For example, 2019 Senate Bill 997 to decriminalize marijuana died in committee and never reached the entire Senate.

These are our best- and worst-rated legislators:

Senate	Senator, District	Budget Bill %	Other Bills %	Overall Score
Best Republican (2-way tie)	Amanda Chase, 11	0%	67%	33%
	David Suetterlein, 19	0%	67%	33%
Best Democrat	Chap Petersen, 34	0%	36%	18%
Worst Republican	Emmett Hanger, 24	0%	17%	8%
Worst Democrat	Rosalyn Dance, 16	0%	8%	4%

House of Delegates	Delegate, District	Budget Bill %	Other Bills %	Overall Score
Best Republican (2-way tie)	Mark Cole, 88	0%	82%	41%
	Nick Freitas, 30	0%	82%	41%
Best Democrat	Lee Carter, 50	100%	55%	77%
Worst Republican	Kirk Cox, 66	0%	17%	8%
Worst Democrat	Wendy Gooditis, 10	0%	0%	0%

For the Overall Score, we weighted the budget bill, HB 1700, equal to all other bills combined. Delegate Lee Carter (Democrat, District 50) was the only one to vote against the budget. For that reason, Carter was our highest-scoring member of either house, with an Overall Score of 77%.

It's worth noting that Carter is a self-described Democratic Socialist, and Libertarians disagree with socialists on many important issues. Nevertheless, Carter was the only legislator to vote against the budget bill, and we believe that choice deserves recognition.

The overall worst-rated member in either house was Delegate Wendy Gooditis (District 10), who remarkably voted against Libertarians on every bill, resulting in an Overall Score of 0%.

Delegate Kirk Cox, who serves as Speaker of the House, was the worst-rated House Republican with an Overall Score of 8%.

The tables on the following pages give descriptions and vote breakdowns for the bills we included.

Selected Bills of the 2018-2019 Virginia Legislature

Year	Bill #	Bill Topic	Bill Description	PAC Position	Bill Enacted?
2019	HB 1700	Budget Growth	Grows spending from \$105 billion in 2017-2018, to \$121 billion in 2019-2020. Libertarians want to cut government spending, not increase it. (This bill was weighted very heavily on our scorecard.)	Against	Yes
2018	HB 900	Restrict Asset Forfeiture	Prohibits police from taking someone's property until the person has been found guilty of a crime. Libertarians oppose policing for profit and especially oppose law enforcement's ability to seize and keep property without getting a conviction in court.	For	No
2018	HB 222	Business Tax Incentives	Gives tax incentives to businesses that make certain investments in Virginia. Libertarians support a level playing field and reduced taxes for everyone, and oppose government picking winners and losers.	Against	Yes
2019	SB 1255/ HB 2356	Amazon Subsidy	Gives \$750 million in tax incentives for Amazon to locate a second headquarters in Virginia. Libertarians support a level playing field and oppose special privileges for any business. Offering incentives leads to corruption, hurts competition, and encourages businesses to focus on lobbying for handouts rather than improving their products and services.	Against	Yes
2018	SB 516	Expand Charter Schools	Allows the Virginia Board of Education to expand the availability of charter schools. The bill died in the Senate Finance Committee. Libertarians want government out of education, but some see charters as a small step towards improving quality and reducing taxpayer cost with competition.	For	No
2018	HB 665	Coal Subsidies	Gives up to \$7.3 million in subsidies for coal companies. Libertarians support a level playing field and oppose government subsidizing one form of energy over another.	Against	Yes
2018	SB 573	Renewable Subsidies	Gives a tax subsidy to renewable energy businesses for creating jobs. Libertarians support a level playing field. Subsidizing renewable energy and coal seems especially absurd (see 2018 HB 665).	Against	Yes
2019	SB 1126	Allow Casinos	Allows casinos in Virginia. Libertarians oppose bans on gambling.	For	Yes

Year	Bill #	Bill Topic	Bill Description	PAC Position	Bill Enacted?
2019	SB 1024	Allow Guns in Church	Removes the blanket prohibition of guns in churches. Churches would then have the right to either allow or prohibit guns. Libertarians oppose government prohibitions of guns and support the right of private property owners to allow or prohibit guns.	For	No
2018	HB 5002	Medicaid Expansion	Expands Medicaid eligibility to around 400,000 additional people. Medicaid is a state and federal program to help cover medical expenses of the poor. Libertarians oppose government involvement in healthcare and health insurance, and believe costs would drop dramatically and quality would improve if the government got out of the way.	Against	Yes
2018	HB 1554	Barber License	Creates a new type of license for "master barbers." Libertarians oppose more government licensing. Occupational licenses require expensive and time-consuming training, and make it harder for young and poor people to start careers. Libertarians would allow private certifications to replace state-controlled licensing.	Against	Yes
2018	SB 569	Construction License Exemption	Allows students and apprentices to do construction work without a license, if they work for a licensed contractor. Also expands other construction license exemptions. Libertarians generally oppose government licensing because it violates workers' rights, harms competition, and drives up costs.	For	Yes
2019	SB 997/ HB 2079	Decriminalize Marijuana	Decriminalizes marijuana possession and replaces criminal punishment with a civil penalty of \$250 or less. Current law imposes a maximum fine of \$500 and a maximum 30-day jail sentence for a first offense. Libertarians are opposed to the war on drugs, which violates people's rights, costs a lot of money for jails and courts, and harms people by giving them criminal records.	For	No
2018	SB 884	Increase Alcohol License Fees	Increases the fees on alcoholic beverage licenses. Libertarians oppose these licenses entirely, and certainly oppose increasing these fees, which harm business owners and drive up prices for consumers.	Against	Yes
2019	HB 2748	Tobacco Age 21	Increases the minimum age to buy tobacco from 18 to 21, except for active military. Libertarians think 18-year-olds should be able to control what they put in their bodies and should therefore be able to purchase tobacco.	Against	Yes

																Average Score: 0% 32% 16%				

Notes:

- "Budget Growth" HB 1700 is weighted equal to all other bills combined because every voter is heavily impacted by the budget, while other bills have narrower impact.
- Budget Bill % is based solely on 2019 HB 1700.
- Other Bills % is based on all bills except HB 1700.
- Overall Score = average of Budget Bill % and Other Bills %.

Green-shaded bills represent Libertarian victories: good bills that passed, or bad bills that failed.

* Bill did not reach a vote on the Senate floor; committee votes are shown.

+ means "voted the way Libertarians preferred"; - means "voted against Libertarians";

NV means "not voting."

A slash indicates officeholder change: 2018 - Wexton; 2019 - Boysko.

Notes: 1 2 3 4
Average Score: 1% 34% 18%

Notes:

- "Budget Growth" HB 1700 is weighted equal to all other bills combined because every voter is heavily impacted by the budget, while other bills have narrower impact.
- Budget Bill % is based solely on 2019 HB 1700.
- Other Bills % is based on all bills except HB 1700.
- Overall Score = average of Budget Bill % and Other Bills %.

Green-shaded bills represent Libertarian victories: good bills that passed, or bad bills that failed.

* Bill did not reach a vote on the House floor; committee votes are shown.

+ means "voted the way Libertarians preferred"; - means "voted against Libertarians";

NV means "not voting"; A means "abstain."

A slash indicates officeholder change: 2018 - Boysko, Cline, Habeeb; 2019 - Samirah, Campbell, McNamara.
